B: I'm hungry. Is it time for lunch yet?

C: I think we still have 10 minutes before the bell rings.

A: What do you feel like eating?

B: Anything. I want a sandwich, chips and some juice.

C: How much will all that cost? Do you have enough money?

B: I have \$6.00. Why? How much does all that cost?

A: The sandwich costs \$2.45, the chips cost \$1.00 and the price of the juice is \$1.25.

C: Hey, that's only \$4.70. Will you buy me a bag of chips?  
I'll pay you back tomorrow.

A: Hey, me too, I want some juice.

B: Let me add this up, \$4.70,  $\$1.00 + \$1.25 =$  that's \$6.95. Sorry, one of you will have to pay for your own.

C: That's okay, I'm not that hungry. I don't need the chips. You guys go buy it. I'll see you later.
